Компания Liquid Blue начала производить одежду с высоким качеством принтов в июле 1987 года. Творческая и деловая концепции разработаны ее основателями и художественным редактором Полом Роидоулисом. Первые успехи Liquid Blue связаны с гаражным и стояночным бизнесом в Массачусетсе, США, но уже через несколько лет компания стала одним из промышленных лидеров.

Истоки Liquid Blue берут начало в музыкальной индустрии и связаны с великими именами Rolling Stones, AC-DC, Pink Floyd, Led Zeppelin, Jimi Hendrix и многих других звезд мировой сцены. Базирующаяся в Линкольне (Род Айленд) компания известна во всем мире и присутствует своими линиями одежды в таких сферах, как уличная поп-культура, фэнтези, природа, музыка и другие направления. Предлагая каждому что-то особенное, Liquid Blue изготавливает превосходную продукцию самого высокого качества, использует при создании футболок экологически чистый хлопок и натуральные природные краски.

Пол Роидоулис каждый день бывает в офисе Liquid Blue, а его творческие концепции до сих пор интересны даже самым старым клиентам. Его креативность создает то особенное, что возвращает вас к Liquid Blue снова и снова, она распространяется на каждую идею, заражает каждого сотрудника, а затем воплощается в футболке, которую сегодня Вы держите в руках.

Компания думает обо всех вместе и о каждом в отдельности, желая угодить каждому покупателю, большому и маленькому. Именно поэтому в ассортименте – изделия от детского размера YS до взрослого 8XL.

The Blue goes Green

Здесь, в «Liquid Blue», мы всеми силами пытаемся помочь окружающей среде. Помимо ведения программ по переработке мусора, мы занимаемся усовершенствованием наших стиральных машин и устройств для сушки красителей. Новые модели не только экономят энергию, но и способствуют сохранению природных ресурсов. Liquid Blue, как всегда, заодно с зелеными!

Разработано и создано в США

Мы гордимся тем, что дизайн наших футболок разработан и создан здесь, в Линкольне, Род Айленд.
